Flat Glass Fixed Rooflights

Skyseal.co.uk

Our Skyseal Skylights®

Flat Glass Fixed Rooflight offers a competitively priced glass rooflight without compromise. This skylight is perfect for any modern home or commercial building.

Minimalist, Slimline Design

Our Flat Glass Fixed Rooflight features a **modern, sleek contemporary design** which maximises daylight thanks to its **ultra-slim aluminium framework**, barely visible from the inside, while still providing excellent external protection.

Strong Aluminium Frame

Our Skyseal Skylights® Flat Glass has an aluminium frame that not only provides your home with beautiful aesthetics but also adds structural strength to the glass, while enhancing home security. The frame protects the most vulnerable areas of the glass, encapsulating it at key stress points to help prevent accidental damage.

Thermally Efficient

This unit has a **centre pane U-value of 1.19 W/m²K**, making this one of the most thermally efficient double-glazed rooflights on the market.

GLASS SPECIFICATIONS

Double Glazed: 28mm overall (1.19 W/m²K)

- 6mm toughened glass with a UV-blocking black ceramic border.
- 16mm Argon-filled cavity.
- 6mm toughened low-e soft coat inner pane.

This design helps **keep indoor temperatures comfortable** throughout the year while minimising energy expenses.

Quick & Easy to Install

Designed for straightforward and quick installation, the skylight is simply lowered onto your weathered upstand and fixed in with the supplied screws and washers in the pre-drilled holes. The Skyseal Skylights® Flat Glass Rooflight is manufactured in the UK, meeting the highest standards of quality and craftsmanship, whilst being fully compliant with building regulations.

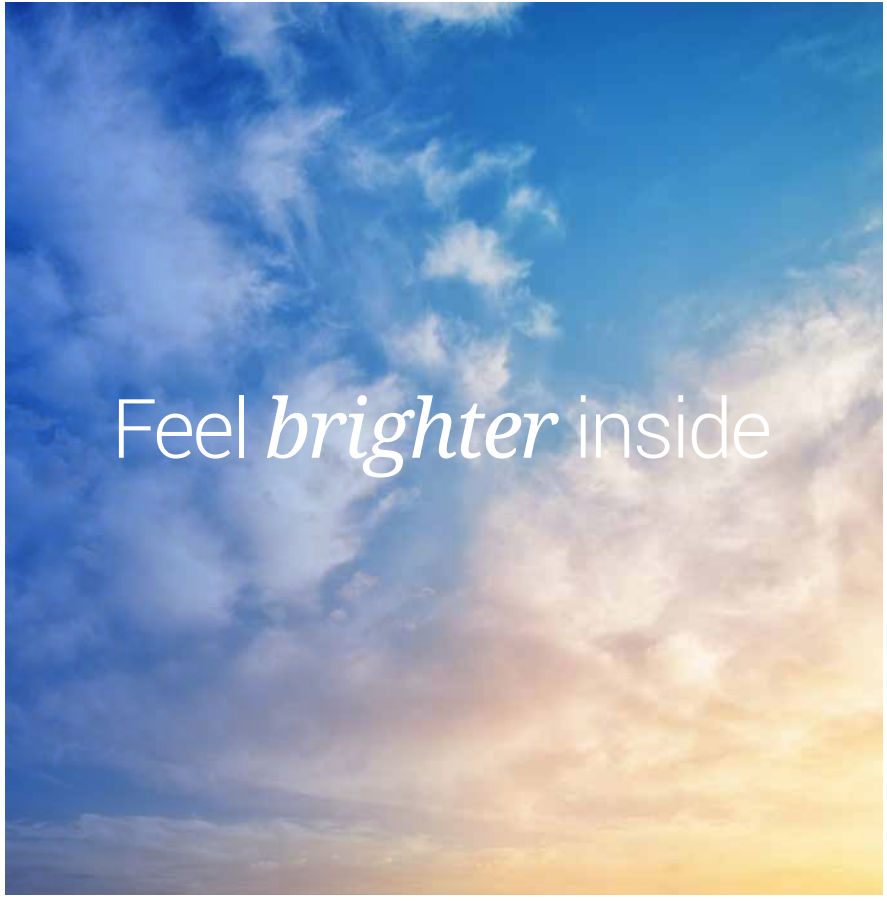

ADVANTAGES

- Slim, contemporary design for maximum natural light.
